PROJECTS

codingsols

Web

- codingsols is a coding forum designed to connect programmers of all levels, from beginners to experts. It provides a platform for asking and answering questions, sharing knowledge, and collaborating on coding projects.
- The goal is to foster a supportive and inclusive community where everyone can learn and grow.

The Air Cafe

Android

- The Air Cafe project is a streamlined ordering system designed to improve efficiency and customer experience in cafes and restaurants.
- Customers order meals directly from their table by scanning a unique QR code, eliminating the need for physical menus and waitstaff order-taking.
- Cafe owners gain real-time visibility into orders, allowing for quicker service and improved order management.
- This system aims to reduce wait times, improve accuracy, and enhance the overall dining experience.
